SUMMARY

As a seasoned **Senior Mobile App Developer** with over 8 years of experience, I specialize in building high-performance mobile applications using **Flutter** and **React Native**. My focus is on creating seamless user experiences across both iOS and Android platforms, ensuring that applications are not only visually appealing but also intuitive and responsive.

In addition to mobile app development, I possess strong skills in integrating applications with popular OTT platforms like **Roku**, **Fire TV**, **Apple TV**, and **Android TV**. My experience includes implementing video streaming functionalities and optimizing media content delivery to enhance user engagement. I also have a solid background in API integration, including payment gateways such as **Stripe**, allowing for secure and efficient transaction processing within applications.

My commitment to crafting exceptional mobile experiences, combined with my technical expertise in app development, API integration, and video streaming, empowers me to deliver solutions that meet both user needs and business objectives.
